## Combin Recycled Content

Green Warehouse Ltd. hereby certify that the cardboard bases of the Combin (representing 73% of the bin by weight), are made from 100% recycled cardboard.

This material is manufactured and processed by a third party company. Each material batch is covered by a certificate of conformity.

The material is obtained from multiple sources in order to maintain supply sustainability.

All material batches are manufactured by a recycling facility located in the United Kingdom.

This facility is certified under ISO 9001:2015.

Mr. William Hayes  
Company Director  
Green Warehouse Ltd.
